# Background

TechRate was commissioned by Liquidus to perform an audit of smart contracts:

<https://bscscan.com/address/0x16a75e34d19323ae1183372e9d511175009140a0#code>

The purpose of the audit was to achieve the following:

- Ensure that the smart contract functions as intended.
- Identify potential security issues with the smart contract.

The information in this report should be used to understand the risk exposure of the smart contract, and as a guide to improve the security posture of the smart contract by remediating the issues that were identified.
